

Services in vp.ONLINE

Production environment

May 2018

Webmasterusers in vp.ONLINE test are able to assign the following services to the relevant users.

Please make sure that the users who shall test in the community test has all the relevant rights in vp.ONLINE.

vponline.dk: VP SECURITIES

- ST20550 – VP account maintenance (e.g. for creating T2S accounts)
- ST21002 – T2S Clearing Settlement, read functionality
- ST21003 – T2S Clearing Settlement, update functionality
- ST21010 – T2S 4-eye principle
- ST20351 - vp.SETTLEMENT functions – update functionality
- ST20352 - vp.SETTLEMENT functions – read functionality

vponline.dk: VP LUX

- ST20550 – VP account maintenance
- ST21002 – T2S Clearing Settlement, read functionality
- ST21003 – T2S Clearing Settlement, update functionality
- ST21010 – T2S 4-eye principle

Please notice, the services are important in order to get access to the new functionality in relation to the T2S DKK 2018 solution via vp.ONLINE.

The settlement instruction functionality in the VP 3270 (black screen) system will be decommissioned 9 April due to the T2S 2018 solution.
